**נושא:** He Lost Everything! But Now His Friends Envy Him

Dear Nimrod,

**This story is not to be told by me.**

This is the unbelievable story of Yacuobuo, a mango grower from Togo, who has lost everything, and then got it all back (and more).

Some years ago Yakuobuo, a mango grower in Togo, had no problem of fruit flies. I mean, he did, but it was manageable.

Then a few years ago a new fly invaded Africa, and Togo (i.e. *Bactrocera dorsalis*). Yakuobuo began to notice flies on the fruit itself, and over time he saw the larvae, and all fruits would rot.

Then the Women (who buy and sell the fruit) would start complaining... and then it became **impossible!**

There was no market at all for Yakuobuo's infested produce: **Yacuobuo says, "I stopped selling"**.

His neighbors started **burning** their mango trees because they had **no value with the fruit fly 80% fruit infestation.**

At our **first meeting** - [Yacuobuo is sharing his story](#); Grim and hopeless when facing [fruit fly damage](#)

Earlier this year we started an *Initiation Phase* project with the **University of Kara**. Yacuobuo volunteered to experiment the novel solution in his orchard.

He wasn't hoping for anything special, after all nothing did work until now. But he agreed not to cut off his trees, and to give it a chance.

If there is a reason to do what we do, is simply to see how we truly change the lives of people and give them a new future, full of hope and opportunities. At the same time we also change the world.

Three months ago I have met Yacuobuo for the first time. I recorded him at the end of our meeting.

Last week I have met Yacuobuo again. This time he was so much different; his eyes were shining and I saw him smiling and laughing for the first time.

This Yacuobuo was a transformed person, one who has hopes and optimism as to his future.

Think of yourself, how would you act, what would you do if you found out that your annual income has just increased by **10 fold**?

**"Going From Nothing to Something"**, is the story of Yacuobuo.

**Making Yacuobuo Smile Again** is our pleasure.

Below is a documentation of our meeting from last week (wait till the end!).

Can you see the difference?

*From nothing to more than he dreamed - [an amazing change](#)*

There is really nothing I can add to how Yakuobuo describes it. **Except:** Yakuobuo sees his situation, his grove, and his family.

I see **500 million farmers in India, Africa, and Latin America**, and their communities and their countries... and their future.

The world can be an amazingly better place, and even more so because the Biofeed GCFR technology gives people much better lives and livelihoods with no spraying or poisoning of the environment to make it happen!
