**Partnership is about getting intimate, getting to know each other better. You open your heart, you share (you take a risk), and see if the feelings and expectations are mutual.**

This e-mail is an open invitation for such an experience, especially if you are a ... Business person, distributor, representative of a state, working for a 'fruit fly control project', or a very big farmers' organization... this is for you!

Do you have the ability to get a new, *game-changing* solution, all the way to the market? Do you have the experience to take a product 'from producer to farmer'? And above all, are you ready to work hard, really hard?

If the answer is YES to the above, then you are a "**Market Opener**", so keep on reading, because this is for you.

Biofeed is already known for making history in the plant protection arena.

Once again, we are about to do things 'differently', as I love it.

For the first time ever, I am about to open the gates and enable full access to working with us for "Market Openers" from all over the world

What is a Market Opener? How would we (and you) know if you are ready for this challenge?

We start with an open webinar, free of charge, the "**Market Opener Webinar**".

The webinar will be very extensive, thorough and will bring a lot of information and added value to participants. So you are sure to benefit and enjoy it, no matter what is your purpose.

To keep it intimate and because it is my first webinar, I limit the webinar to only 30 participants. By now 25 already registered, so do not wait.

Specific date and time will be sent to registered participants [>>Register here <<](#)

Together let's make fruit flies;  
*'just another pest'!*

**Leave Your Worries Behind and ==> Make a Change!**  
(Grow your Income)

Regards,

**Better produce... Better future... Biofeed...**

**P.S.** West Africa was the most to suffer from the invasion of *Bactrocera dorsalis*. It is now so great to see that it is probably going to be the first beneficiary of the *FreeDome*.

**P.P.S.** If you are leading a 'state fruit fly control project', this webinar is definitely for you. Do not miss it.

And here again, the webinar link to registare for free - [>>> Press here for registration <<<](#).

*"Green, effective, healthy and suited for **all farmers**, this is my vision for pest management"*

You can contact me on [LinkedIn](#) / [YouTube](#) / [Facebook](#) or a return email.

If you enjoyed it, please share it with friends and let them enjoy the high quality pest control solution we provide. They can also add themselves to the list of mail receivers by - [Pressing here](#).
