**אל:** Nimrod  
**נושא:** The Flag of [Farmer] Economic Freedom

Dear Nimrod,

Yesterday was Independence Day here in Israel.

**Flags** are an important **symbol of freedom** in many countries, from the Prime Minister of India unfurling the flag at the Red Fort each Indian Independence Day to the American national anthem's proclamation "that the flag was still there". In the spirit of this occasion, I'd like to introduce you to the global **Flag of Farmer Freedom**:

Ethiopia. Holding the Flag of Farmer Freedom

India. The [Flag of Farmer Freedom](#) (press for video)

What a magnificent banner! What a powerful declaration farmers everywhere are making by flying the **Flag of Farmer Freedom**. With the Biofeed technology you are free from more than fruit flies, you are:

- Free from fear of losing an entire working year and income
- Free to make plans for your future and the future of your family
- Free from using pesticides and spraying
- Free of repeated labor that comes with spraying
- Free of chemical residues
- Free to keep the biological balance and environment in your orchards
- Free of worries; what will happen if there will be an additional fruit fly?
- Free to make plans as to the perfect timing of fruit picking

### Senegal. The Flag of Farmer Freedom

- For the first time ever **you have power** over forces that would damage your livelihood and even harm you. Now **you decide** when to harvest your crops, **you choose** whether to sell to the domestic or export market, and **you earn** the full benefit of the fruits of your labor!
- **You control** the pests that threaten you, they do not control you.
- You can **plan your own future** and have a much higher degree of assurance that your plans will come to fruition, at least as far as controlling the pests that attack your groves are concerned.

This is genuine freedom!

Declaration of Independence - Inserting the Formulation bottle into the **Flag of Farmer Freedom**

Like all movements of independence and freedom, Farmer Freedom occurs as farmers work together to make this freedom happen and wave the Flag of Farmer Freedom. Government leaders in India, Ethiopia, Togo, Senegal, Kenya and Israel support Farmer Freedom, and Farmers in these countries are joining the movement and waving the **Flag!**

Join other proud flag-waver - Farmer Freedom is good for everyone!

The Flag of Farmer Freedom is not a national flag, only for farmers in one area or for one type of crop. The Flag of Farmer Freedom may be flown by Farmers anywhere in the world, to declare

freedom from fruit flies that attack many types of crops - mangoes, citrus, bananas, apples, peaches, vines and other fruits and vegetables.

Togo. The Flag of Farmer Freedom

This independence does not come just once a year, but rather Farmers can enjoy the freedom and the benefits of the Flag of Farmer Freedom every day of the year.

Happy Independence Day to Farmers everywhere and to everyone who works with or supports Farmers!

It is thanks to your interest that I write those e-mails. So it would be honored if you share this mail with friends, where they can add themselves to my mailing list through [Pressing Here](#). You can always unsubscribe by pressing the link at the bottom of each mail.

Regards,

Nimrod

P.S. Protecting freedom requires constant alertness, which is why Biofeed stands ready to develop solutions against additional types of fruit flies as needed. Please stand at our side for Farmer Freedom!

P.P.S. Farmers wave the **Flag of Farmer Freedom** proudly and confidently! It is a very special flag - you protect it and it protects you!
