נושא: WOW... Respect to David Wanetick [Solution Nation]

Dear Nimrod,

After so many years of hard work, we were fortunate enough to recently get repeated recognition for our efforts and achievements.

First recognition came from the **Israeli Innovation Authority**, then we won **Grand Challenges Israel**, followed by meetings (twice) with the PM's of Israel, **Netanyahu**, and India, **Modi**. Then a meeting with the President of Togo, **Gnassingbe**, and Ministers...

And now - I am thrilled and happy to see we were chosen and recognized by **Mr. David Wanetick**, the author of **Solution Nation™**, as one "of 62 of Israel's most promising companies".

<http://solutionnation.co.il/index.php>

Solution Nation contains fascinating and rigorously researched profiles of 62 of Israel's most promising companies. In addition to developing and commercializing cutting-edge technologies, all of the companies included in Solution Nation are dedicated to solving intractable challenges. Learn how the world's most disadvantaged and destitute people stand to benefit from Israeli ingenuity. Readers are introduced to Israeli companies that are detecting cervical cancer and heart failure, preventing amputations and auto accidents, helping the blind see, enabling the paralyzed to stand, purifying water in the wake of natural disasters, taming starvation, and rescuing people from burning buildings.

David Wanetick selected companies that have created exceptional capabilities and technologies for inclusion in Solution Nation. Biofeed is extraordinarily proud to be included in this group; the third company in the first chapter. It is recognition of what we have accomplished, and at the same time we feel it is a mission for us to bring this lives-changing capability to as much of the world as possible.

From the vantage point of this recognition, after 14 years of intensive focus on development of the technology and with Biofeed at the moment of launching its global expansion, I admit to a feeling of relief. I have relief that all of this effort has in fact come to fruition, does create enormous potential

benefit for the entire world, and will help millions of farmers as they put effort into fulfilling their potential as I'm putting into fulfilling mine.

The Passover holiday, whose central theme is the passage from intractable suffering to exhilarating freedom, begins later this week, and it is terrifically appropriate to have received this honor this week. My holiday wishes to all humanity to make this passage in their own lives, each person in his or her own way.

Regards,

Nimrod
